

KEY INSIGHTS

LOAN PORTFOLIO PERFORMANCE ANALYSIS

- **Insight 1**

Good loans account for the majority of applications and funded amounts.

Recommendation: Maintain focus on borrower segments with strong repayment records.

- **Insight 2**

A small number of states contribute a disproportionately large share of loan volume.

Recommendation: Prioritize marketing and relationship management in high-performing regions.

- **Insight 3**

Debt consolidation is the most common borrowing purpose.

Recommendation: Design targeted debt-consolidation products with competitive pricing.

- **Insight 4**

Higher-risk grades show weaker repayment performance.

Recommendation: Tighten monitoring and review underwriting criteria for high-risk borrowers.
